
Covid, respiratory illnesses, the state of the world

- Everything sucks.
 - If you're sick, don't come to class. Catch up via discord.
 - I don't need a Dr's note. *I trust you.* I will not chase you down.
 - BECAUSE Covid wrecks your immune system with repeated exposures, making you more likely to get seriously ill from things that wouldn't have bothered you before;
 - BECAUSE the f'n pandemic is *not* over, and one of its features is how it weakens everything;
 - BECAUSE we are in the bowels of one of the worst buildings on campus and the air quality is suspect:
 - I will *always* be wearing a mask.
 - I hope you will always wear a mask here.
-

Next Day: What seeing like an archaeologist *means* for the history of the internet

- Nothing to read for Wednesday
- But have the tutorial level complete (it will walk you through setting up a variety of things)
- Assemblage theory, networks, and flows oh my!
